SUMMERSCHOOL WORKSHOPS

eating disorders, also known as eating disorders or eating behaviors (ADD), refer to serious disturbances in eating behavior. The purpose of our training is to detect the symptoms of an eating disorder and its diagnosis, explain the causes and reasons for the eating disorder and suggest effective solutions with our tutor Nihel Beji

SUMMERSCHOOL WORKSHOPS

Biomedical engineering (BME) is the application of engineering principles and techniques in the medical field to the control of biological systems or the development of devices for the diagnosis and treatment of patients. This field is a mixture of medicine, biology, and engineering . Our Tutor is Dr Mouna Marrakchi

SUMMERSCHOOL WORKSHOPS

EMBS GENERAL ASSEMBLY

We held our first general assembly for EMBS this year, on October 11th and it was a great success thanks to you!

We were beyond happy to see the great number of members that came along and lived those special moments with us.

We took the chance to present ourselves, and to share our vision for EMBS for this mandate with you.

IEEE DAY

IEEE Day: Celebrating the first time in history when engineers worldwide and IEEE members gathered to share their technical ideas in 1884. IEEE INSAT is celebrating this year's IEEE DAY in space. Yes, our theme this year, as you heard, is space and galaxies.

it was an occasion to learn about our student branch more!
